

ELKAY® FACT SHEET

Healthier Hydration from Elkay

Cleaner, better tasting water, wherever you are! Elkay has been a trusted leader in water delivery since the 1960s, and you've seen our water fountains and bottle filling stations in airports, schools, offices and gyms.

Now we're bringing our expertise into your home, with even more stylish and convenient options that make it easier than ever to stay hydrated. Our sink filtration options make it fast and simple to fill up pitchers, pots, pet bowls and water bottles. With the ezH2O Liv® you can offer your family or guests chilled, filtered water in any room you'd like, from mudroom to guest suite. And both use trusted, high-quality, long-life filters.

The Elkay Difference

Avado® 2-in-1 Faucet with Filtration: The convenience of cleaner, healthier water straight from your kitchen sink, in a stylish faucet with a long-life filter.

Filtered Glass Filler: Add on to your existing sink and faucet with a glass filler that includes a filter, making getting a drink of cleaner, healthier water a breeze.

ezH2O Liv® Built-in Filtered Water Dispenser: Add convenience beyond the kitchen! Sleek, stylish Liv fits neatly between two studs and can be installed anywhere there's a water line, so you can have fresh, filtered water in your mudroom, home gym, living space and beyond.

WaterSentry Filters: Our easy-change water filters are tested and certified to NSF and ANSI standards for the reduction of lead and other harmful contaminants—a standard usually reserved for commercial solutions, but now available at home. And our filters last longer, so they require less maintenance and help reduce plastic waste from disposable water bottles.
