ezH2O® BOTTLE FILLING STATIONS
Cleaner, Healthier Water
Drinking Solutions for Every Application

Our drinking water products are designed to meet or exceed your needs and specifications. Elkay® has a wide variety of bottle filling stations and water coolers that comply with adult or child ADA standards, as well as models that offer the added assurance of our WaterSentry® filters.

Made in the USA

Many of our products are made in the USA and comply with the Buy American Act. Check individual product listings for more information.

Enhanced Units

ezH2O® bottle filling stations provide convenient, sustainable and healthy hydration. The perfect solution for nearly every application, our enhanced models have all the great features of our original line with added ingenuity.

Energy Savings

Programmable refrigeration system can be powered down during times when the unit is not in use to save energy costs.

FillSafe™ Filter Recognition System

Filter recognition system detects a new Elkay filter and automatically resets the filter monitor light from red to green.

System Diagnostics

Unit automatically reviews the system to ensure it is operating within normal levels. Scrolling alerts appear on the visual display if an issue should arise.

Low Energy LED Light

An energy efficient touch that helps users see when their bottle is full and illuminates dark hallways.

Green Ticker™

Informs users of the number of 20 oz. single-use water bottles saved from waste by using reusable bottles and cups.

Flexi-Guard® Safety Bubbler

Flexi-Guard bubblers flex on impact and feature an antimicrobial agent that is infused into the bubbler for an extra level of security.

Electronic Push Bars

Push bars provide easy activation.

Real Drain

The basin includes a real drain system to help with drainage and eliminate standing water.

Features vary by model.
Original Units
Our original bottle filling stations offer essential features and benefits.

Hands Free
Sensor activation and bottle rest platform provide users with a touchless bottle filling experience.

Minimal Splashing
Dispenses a clean, laminar flow of water so there's minimal splashing.

Filter Status Lights
Colorful lights indicate when filter needs changing so you always know you're getting filtered water.

Antimicrobial Protection
Inhibits the growth of mold and mildew.

Real Drain
The basin includes a real drain system to help with drainage and eliminate standing water.

Quick Fill and Laminar Flow
Fill rate is 1.1 GPM for refrigerated units and 1.5 GPM for non-refrigerated units. Laminar flow produces a clean fill with minimal splash.

Green Cooler Combo
Our EZ green family offers the features you have come to know with Elkay such as the Flexi-Guard® StreamSaver™ water efficient bubbler and push bar operation while including our energy-efficient refrigeration system.

Features vary by model.
Vandal-resistant Bubbler

Vandal-resistant bubbler is chrome plated with integral hood guard design to prevent contamination from other users, airborne deposits and tampering.

VRCTL8WSK

Vandal Resistant

For high-traffic applications such as education facilities or indoor recreation areas. Full stainless steel construction is not only durable, but easy to clean. Comes with vandal-resistant bubbler(s) and push-button activated bottle filling station. Non-filtered versions are rated for outdoor use.

Vandal-resistant Green Coolers/Cooler Combos

The vandal resistant green units are energy-efficient cooler combinations.

LVRCGRN8WSK

Mechanically-activated Cooler Combos

Mechanically-activated Cooler Combos

Convenient hydration along with a mechanical cooler so water is always available. Mechanically activated push bars on both front and sides operate during power disruption.

LMABF8WSSK

Features vary by model.
On Wall

**Surface Mount**
Can be used in locations with limited wall depth or in conjunction with a fountain or remote chiller. Available with electric display and available in a mechanically activated version with battery-powered Green ticker™ and visual filter monitor.

**Models**

- LZWSSM
  - Sensor-activated design.

- LMASMB
  - Mechanical push button for areas where electric is not available.

**EZ Retrofit Bottle Filling Station Kit**
The ezH2O retrofit can be installed on existing Elkay coolers.
Architectural Bottle Filling Station Combinations
Flush with wall for a seamless look, our SwirlFlo® and Soft Sides® architectural fountains paired with in-wall bottle filling stations are ideal for office buildings, hospitals and indoor recreational facilities. Available in filtered and non-filtered, refrigerated or non-refrigerated models.

Architectural Fountains With Integral Bottle Filling Stations
The sleek design of our architectural fountains integrated with an ezH2O bottle filling station provides a complete, in-wall water delivery solution.

Retrofit an Existing SwirlFlo® or Soft Sides® Fountain
Retrofit kits convert your existing SwirlFlo and Soft Sides architectural fountains into bottle filling station combinations.
Outdoor Tubular Bottle Filling Stations and Fountains
Our outdoor tubular bottle filling stations and drinking fountains offer attractive, long-lasting durability to withstand tough weather conditions. The strong exterior is made from Type 316 stainless steel — standard on all Elkay outdoor tubular models! They are built for busy areas such as parks, pools, golf courses, and school and work campuses.

Vandal Resistant
Vandal-resistant push buttons, bubblers and screws.

Sealed Freeze Resistance
Freeze-resistant models feature completely enclosed and sealed valves to keep water safe from contamination.

Quick Fill and Laminar Flow
Fill rate is 1.0 GPM. Fills bottles faster than a standard drinking fountain. Laminar flow produces a clean fill with minimal splash.

Type 316 Stainless Steel
Increased corrosion resistance makes this product ideal for high-saline environments such as coastal regions and outdoor areas where de-icing salts are common.

- Evergreen (Standard)
- Blue
- Red
- Terracotta
- Orange
- Yellow
- Purple
- Brown
- Black
- Gray
- White
- Beige

Colors apply to all units.

Wall-mount Models
With industry-leading construction, Elkay tubular wall-mount fountains and bottle filling stations are ideal for public spaces with high-traffic areas such as schools, parks and commercial buildings.

Single-line installation makes these units a great choice when upgrading or replacing older fountains. One waste line means these units are simple to maintain.

Features vary by model.
Water Filtration

Elkay water filters provide cleaner, great tasting water for our bottle filling stations, water coolers, drinking fountains and water dispensers. All of our filters are made with activated carbon to improve taste and odor. Many also reduce contaminants such as lead. Elkay filters are easy to connect and are self-contained replaceable cartridges, limiting exposure to contaminated media.

WaterSentry Plus 51300C

• 3,000-gallon capacity equates to more than 22,000 water bottles filled1

• Quick-Disconnect, 1/4 turn makes installation and replacement easy

• Automatic inlet shut-off valve closes when filter is removed to minimize spills

• Filter media is self-contained, providing a more sanitary replacement process

• Recommended replacement is every 3,000 gallons or one year after installation

• For use with most Elkay ezH2O bottle filling stations

NSF/ANSI 42 certified for chlorine, taste and odor, and particulate Class I reduction, and NSF/ANSI 53 certified for lead reduction2.

1 Capacity may vary depending on local water conditions. Water bottle based on 16.9 ounces per bottle.

2 View the certification listings for our products online at NSF.org.

Creating Your Custom Nameplate
1. Choose your Elkay bottle filling stations.
2. Send us your desired logo and Pantone® colors.
3. Our custom team will handle the rest!

Custom Product Capabilities
- Custom stainless steel fabrication
- Multilevel cooler and fountain configurations
- Vandal-resistant bubbler installation

All ezH2O bottle filling stations are customizable with university- or company-specific logos. Orders can include a combination of units (retrofit, in-wall, ezH2O cooler combos, surface mounts).

Customization is available for orders of 10 units or more. Units ordered must be either all filtered or all non-filtered.

If you’re looking for a drinking solution that’s outside of our standard offerings, we can help you tailor an Elkay product to meet your unique specification. Whether you want to change the orientation of a SwirlFlo fountain or add a vandal-resistant bubbler to an EZ cooler, our custom program will exceed your expectations.

About Elkay

Family owned since 1920, Elkay offers high-quality, innovative products and delivers excellent customer service. In the 1960s, Elkay began manufacturing practical and dependable drinking water solutions. In 2010, Elkay introduced the award-winning ezH2O bottle filling station. This innovative, earth-friendly product gained instant popularity for the ability to encourage healthy hydration and the reduction of plastic bottle waste in the environment.

Like your family, Elkay has values and traditions that endure; like a commitment to sustainability and to our country.
