

Stainless Steel Dialysis Box

Elkay® is here to support your health care facility's needs with our quality-made, stainless steel dialysis box. This fully-recessed dialysis supply and waste box, with stainless steel valves, is specially designed to accommodate reverse osmosis and deionized water mixed with dialysate saline concentrate.

Craftsmanship You Can Count On

Type 316 Steel

Incorporates molybdenum for increased corrosion resistance.

Welded Seams

Seams are ground and polished smooth for a professional look.

DIAL316

Hose-drain Bracket

Internal bracket accommodates up to 3/4" diameter flexible drain lines.

Perforated Tabs

Four built-in perforated tabs make wall-frame mounting easy.

Customize It With Elkay

Options Include:

- No valves
- Single valve
- Double supply valves
- Door orientation flexibility
- Locking door
- Non-locking door
