*Upgrade your existing non-filtered Elkay unit to a filtered unit.

Engineered for Performance

Elkay offers a complete line of water filtration solutions, which are conveniently installed where drinking water is used. Our reliable and sustainable water filters are NSF/ANSI 42 and 53 certified to reduce lead and other harmful contaminants. This allows you to deliver cleaner, healthier drinking water wherever you need it.

What is NSF/ANSI Certification?

Nationally recognized as the gold standard for evaluating and certifying drinking water treatment systems, products with these designations have been certified to reduce certain contaminants from drinking water.
