Bottle Filling Stations

We continue to expand our ezH2O bottle filling station offerings. This innovative and award-winning product line upholds our commitment to delivering clean water and sustainable design. It provides a rapid fill of drinking water to quench thirst and minimize plastic bottle waste in the environment.

Coolers and Fountains

From standard design to architectural SwirlFlo® fountains that feature sleek styling with a contoured oval basin, there is a model to meet the needs of every space and building design. Most units offer the option of our WaterSentry filters and our Flexi-Guard® Safety Bubblers. Flexi-Guard bubblers flex on impact and feature an antimicrobial agent that is infused into the bubbler for an extra level of security.

Water Dispensers

We have the perfect water dispenser to meet your needs. Select from models that serve up ambient, chilled, hot or sparkling water. Designed for commercial and residential use, these stylish units provide fresh, filtered water on demand, reducing dependency on plastic water bottles.

Outdoor Tubular Bottle Filling Stations and Fountains

Our outdoor tubular bottle filling stations and drinking fountains offer attractive, long-lasting durability to withstand tough weather conditions. The strong exterior is made from Type 316 stainless steel — standard on all Elkay outdoor tubular models! They are built for busy areas such as parks, pools, golf courses, and school and work campuses.

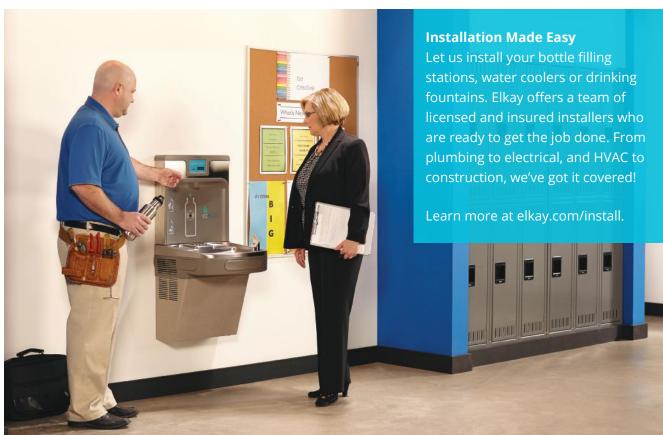

Filters

Elkay water filters provide cleaner, great tasting water for our bottle filling stations, water coolers, drinking fountains and water dispensers. All of our filters are made with activated carbon to improve taste and odor. Many also reduce contaminants such as lead. Our WaterSentry filters are NSF certified to NSF/ANSI 42 and 53 for reduction of lead, Class 1 particulate, chlorine, taste and odor. Elkay filters are easy to connect and are self-contained replaceable cartridges, limiting exposure to contaminated media.

Most of our drinking water products are made in our Savanna, Illinois, plant, which is ISO 9001 registered.
