Maximize Space with a Workstation

Built-in sink ledge lets you work over the sink, saving precious counter space. Sink includes a walnut cutting board to help you go from meal prep to clean up in seconds. The sink also comes with a bottom grid and chrome drain, for your convenience.

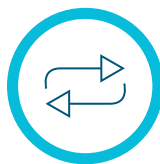

Farmhouse Style

Apron front sinks make a style statement because the beautifully finished material extends to the front of the sink, running alongside lower cabinets.

Beautifully Finished

Fine fireclay material is handcrafted and finished with a smooth and glossy surface.

Reversible Design

Farmhouse sinks can be installed with either a traditional flat front or with a decorative band at the top.
