Vandal-resistant Retrofit Filtration Kits

Retrofit filtration kits are an ideal solution to add a filtration system on existing non-filtered water coolers, fountains and bottle filling stations. The kits can be applied to Elkay® or non-Elkay branded units. They are available with and without a filter status monitor and alert.

Kit Features

Vandal-resistant Enclosure: Made from 20-gauge stainless steel to protect filter and discourage tampering. Torx® bit included for added security.

Versatile Mounting Options: Box can be mounted virtually anywhere near an accessible water line. Box includes conduit punch-outs on sides and bottom and an open back for thruwall plumbing. (Vandal-resistant conduit not provided.)

WaterSentry® VII Filter: 1,500-gallon capacity filter, NSF 53 and 42 certified for the reduction of lead, chlorine, taste, odor and Class 1 particulate.

Filter Status Monitor and Alert*: LED filter monitor and audio alert indicate when replacement is necessary.
