## Fireclay Farmhouse Sinks

Our portfolio of farmhouse fireclay sinks is expanding to offer homeowners more design options. These workstation sinks come with a custom-sized walnut cutting board that slides along a built-in sink ledge, helping homeowners maximize their workspace in the kitchen, while keeping their counters clutter free.

All Elkay® fireclay sinks are crafted from the finest fireclay and baked at high temperatures for a nonporous and extremely durable finish that's scratch and stain resistant. With an attractive porcelain glaze, these sinks have a smooth surface that's easy to clean. They add an elegant touch to any kitchen from traditional décor to cozy urban design.

### The Elkay Difference

**Workstation Sink Kit with Cutting Board Included:** A custom-sized walnut cutting board slides along built-in ledge, maximizing usable space to make the sink a workstation. The sink also comes with a bottom grid and chrome drain, for your convenience.

**Farmhouse Style:** Beautifully glazed sink material is revealed because there is no cabinet to cover the front of the sink. It adds a stylish design element to the kitchen. Available in select models.

**Porcelain Glaze:** The high-gloss glaze on our fireclay models allow these sinks to add a sophisticated and stylish flair to the home.

**Reversible Design:** Farmhouse sinks can be installed with either a traditional flat front or with a decorative band at the top.

**Natural Soundproofing:** Dense material naturally reduces sound.
