

ELKAY® FACT SHEET

ezH2O Liv™ Built-in Filtered Water Dispenser

Imagine hosting a party where guests can help themselves to fresh, filtered water from a stylish, built-in water dispenser in an entertaining space outside the kitchen. Elkay® is proud to introduce the first built-in filtered water dispenser designed especially for the home. The unit features our NSF-certified filter, giving homeowners the added assurance of knowing they are serving family and friends cleaner, healthier water. The elegant glass-front design includes sensor lights that indicate when the filter needs to be changed, and our exclusive Green Ticker™ that counts bottles saved from waste.

With more than 50 years of experience in manufacturing water delivery products, including the award-winning ezH2O® commonly found in schools and at airports, Elkay is proud to lead the way with the next generation of at-home water solutions.

The Elkay Difference

Fresh, Filtered Water: Filters with lead-reduction capabilities are not standard and are rarely found in refrigerators with water dispensers. Water purchased in plastic bottles is susceptible to chemical leaching over time, altering the taste.

Filter Status Lights: Colorful lights indicate when the filter needs to be changed, so homeowners always know they are serving filtered water.

Chic Styling: Sleek glass front with brushed stainless steel alcove looks great in any room. Intuitive alcove lighting brightens when dispensing water.

Sensor Activated: Hands-free filling with automatic timed shut off to help prevent accidental spills and messes.

Safety Lock: Optional setting prevents unsupervised use; ideal for families with small children or pets.

About Elkay Manufacturing

For more than 100 years, Elkay Manufacturing has been making innovative products and providing exceptional customer care. Family owned since 1920, Elkay began by making residential butler and pantry sinks. Today, the company has grown to include faucets, foodservice fixtures, water delivery products and architectural millwork in addition to world-class sinks. We are proud to be America's No. 1 selling kitchen sink company, as well as a leading manufacturer of award-winning water delivery products, including the ezH2O® bottle filling station.

Like your family, Elkay has values and traditions that endure. We take pride in offering reliable products that inspire change and leave the world a better place for generations to come. Headquartered in Downers Grove, Illinois, Elkay is American owned and operated providing thousands of jobs that support our families and communities.
