## FACT SHEET

### Filtration Reimagined: Pro Filtration™ Bottle Filling Stations

In a world of rising water quality concerns, Elkay leads the clean water revolution. Elkay Pro Filtration bottle filling stations deliver superior water protection while making filter maintenance remarkably simple.

With breakthrough technology removing more contaminants than standard systems, these architecturally stunning units transform spaces into wellness hubs. Featuring ergonomic top-access filter changes and the longest-lasting filters on the market. See why institutions everywhere are upgrading to exceptional water quality and simplified maintenance.

### Cleaner, Safer Drinking Water

**High-Performance System:** Pairs exclusively with Elkay Pro Filtration filters to deliver safer drinking water

**Ultra-Capacity Filter:** 10,000-gallon filter is tested and certified to NSF/ANSI 42, 53 and 401 to reduce lead, microplastics and more; ideal for high-traffic areas

**High-capacity Filter:** Rated to last 6,000-gallons or up to one year after installation, resulting in fewer filter changes and purchases

**Total PFAS Filter:** 4,000-gallon filter is tested and certified to NSF/ANSI 42, 53, 372 and 401 to reduce Total PFAS, lead, microplastics and more

**Optional Features:** Sediment prefilter and UVC LED light are available for upgraded protection

### Maintenance Redefined

**Faster Filter Changes:** Top-access filter design streamlines maintenance, allowing for filter changes in under 30 seconds

**Automatic Filter Recognition: & Flushing:** System detects newly installed filters and automatically resets filter status lights and flushes the system to shorten installation time and clean debris and air from the waterway

**Long-Lasting Filters:** Premier filtration from the industry-leader provides the longest lasting filters on the market

### Elevate Your Space

**Elevated Design:** Sleek, architectural design takes up little space and features innovative functionality for a minimalist, modern aesthetic

**Sustainable Choice:** Drink water sustainably; view number of 20-ounce plastic water bottles saved from waste on the unit's display

**Energy and Cost Efficient:** Hermetically sealed refrigeration system keeps moisture and harmful gases from leaking into the system, conserving energy and lowering operating costs

### The Details

- **Material:** Stainless Steel
- **Model(s):** Bottle Filling Station with Single or Bi-Level ADA Cooler
- **List Price:** Starting at \$3,300 List Price
- **Availability:** Immediately
