

## Look Smart! Smart Connected Plumbing Fixtures for Commercial Restrooms

**Program #:** ZURN IZU22A

**Credits:** AIA 1.0 LU/HSW, ASPE 1.0 CEU/PDH\*, GBCI 1.0 CE, IDCEC 0.1 LU/HSW

### Learning Objectives:

1. Discuss how handwashing systems streamline the restroom ecosystem, improving effectiveness and reliability.
2. Explain the health benefits of utilizing touchless sensor faucets and soap dispensers in commercial restrooms.
3. Compare material options and features of sensor flush valves for durability, sustainability, and performance.
4. Illustrate how to specify IoT connected plumbing fixtures and other features to create a smart commercial restroom.

**HSW:** Yes **PDH:** Yes\*

### Description:

How smart is your commercial restroom? Join us in this one-hour course as we discuss plumbing fixtures and features in smart connected restrooms. Participants will learn how to specify handwashing systems, touchless sensor faucets & soap dispensers, and sensor flush valves to create a smart and stylish commercial restroom in a variety of applications.

\* This course is approved for PDH credit but is subject to compliance with each states rules and guidelines.
