

 **WORLD DRYER**

HEPA-Filtered
VERDEdri®

Refined Acoustics.
Superior Features.

Better for Customers is World's Best

When you keep improving for customers, not your competitors, you naturally become the better choice. We examined the features that mattered based on feedback from building owners and their users. Our VERDEdri leads in hygienic features, efficiency, and quieter performance. You'll satisfy the user experience and your restroom prerequisites.

Hygienic Features

HEPA filtration captures 99.97% of particles*, cleaning air before it reaches hands. Antimicrobial technology protects the treated surfaces on the dryer by inhibiting the growth of bacteria, mold and fungus that can cause stains, odors or deterioration.

ENERGY EFFICIENT

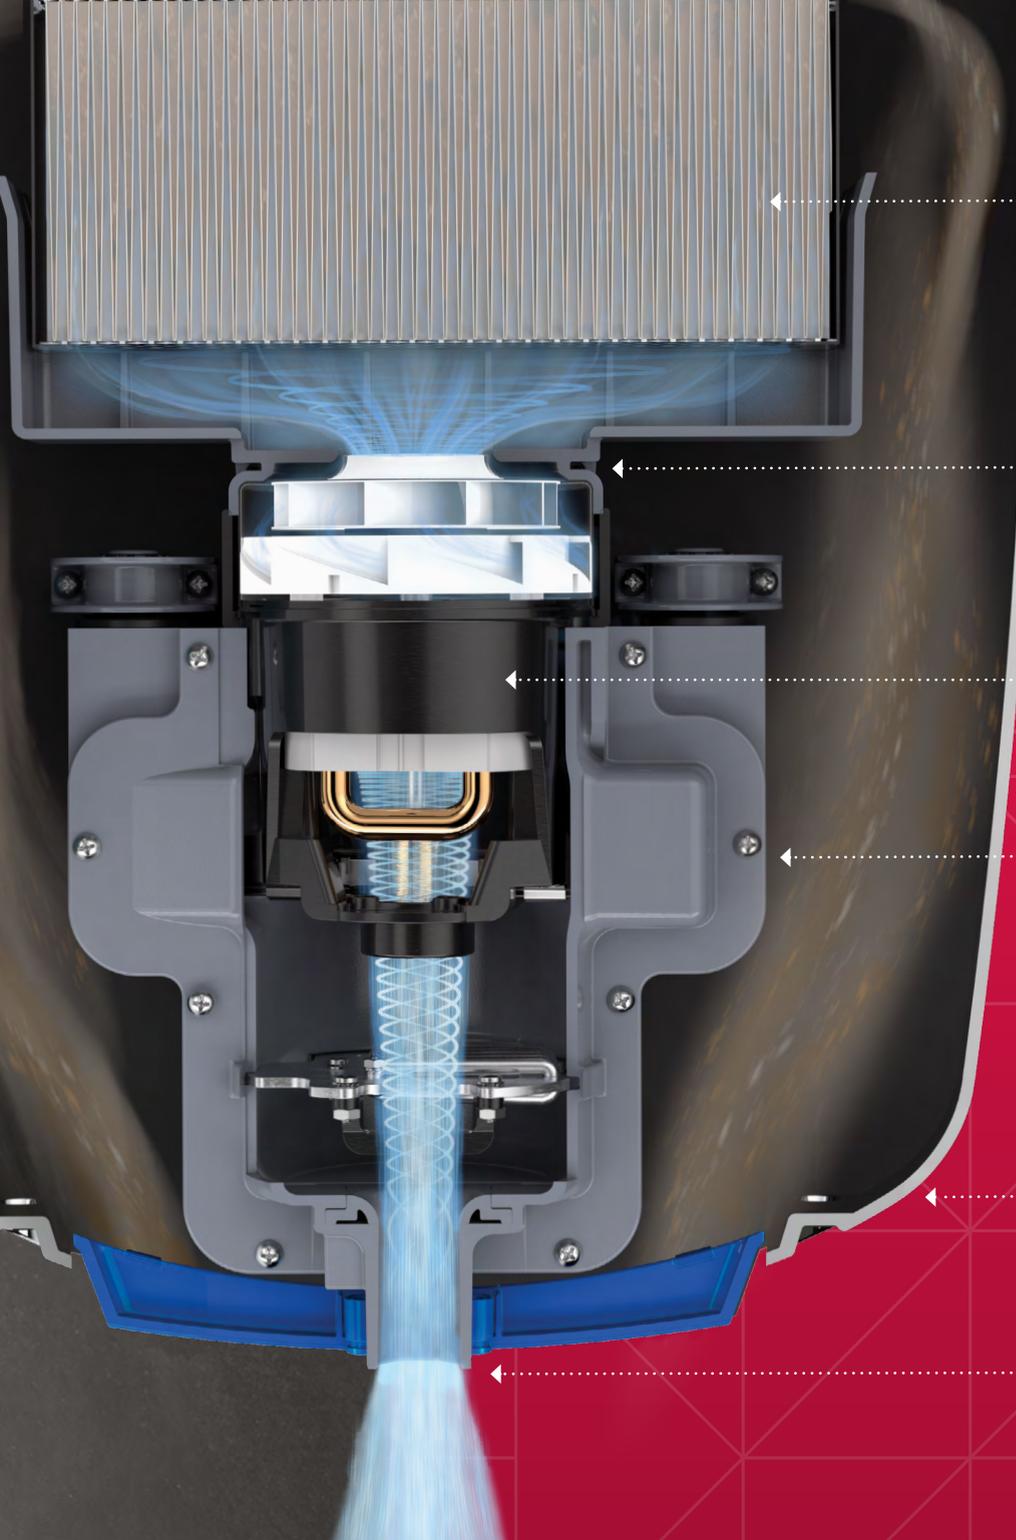

Optimized design uses only 3.16 watt-hrs, while drying hands clean in as little as 12 seconds. You save costs and users save time.

Refined Acoustics

Shhhhh! 30% quieter operation turns down the volume for less disturbance to adjacent areas. Sound levels can be customized to your preference with extended three-mode settings.

HEPA FILTRATION

CUSTOMIZABLE AIRFLOW

EXTENDED LIFE MOTOR

IMPROVED SOUND QUALITY

VANDAL-RESISTANT COVER

HIGH-SPEED ENERGY
EFFICIENT PERFORMANCE

HEPA Filtration

Cleaner than Air™ HEPA filtration captures 99.97% of particles*, cleaning air before it reaches hands.

High-Speed Operation

Optimized technology uses only 3.16 watt-hrs per cycle and dries hands in as little as 12 seconds.

Refined Acoustics

Improved dBA level enhances the work environment.

Reliable Performance

Extended 10-year warranty and triple the motor life protect your investment.

ADA Compliant

Surface-mount installation and compact design ensure compliance for walkways and pathways.

Universal Voltage

Voltage now extends from 120-277V to adapt to any facility.

More Flexible

Sound control adjusts between three-mode settings to accommodate sensitive spaces.

*99.97% effective for particles 0.3µm or larger.

Hand It to the Experience

The next-gen HEPA-filtered VERDEdri puts the hand drying experience first with superior features. It outperforms in speed, sound, efficiency, and sanitation. All models feature a standard HEPA filter, antimicrobial technology, and universal voltage extending from 120-277V. Finishes are available in polished, brushed, white, or black to complement any modern restroom design.
