

ELKAY®

PFAS Filtered Avado® Kitchen Faucet

LKAV7051FCR

Shown in Chrome. Also available in Lustrous Steel and Matte Black

Industry-leading Water Filtration for the Home

Get safer drinking water right from your kitchen sink with Elkay's top-of-the-line filtration. Our Avado® 2-in-1 faucet includes our trusted filter that combats harmful contaminants for safer hydration. It has the same functionality as a standard kitchen faucet — with the added convenience of delivering fresh, cleaner water and peace of mind.

elkay.com/filtration

Filtered Water From the Tap

Go from scrubbing dishes to sipping fresh, filtered water with a nudge of the lever. Move the handle 45° backward or forward for standard hot and cold water to wash dishes, or 90° forward for filtered water to drink.

Commercial-Grade Filtration at the Sink

Help protect you and your family from contaminants with our most powerful, quick-change filter. The WaterSentry® 71300C is tested and certified to NSF/ANSI 42, 53 and 401 to reduce PFOA/PFAS, lead, microplastics, cysts, Class I particulate, chlorine taste and odor, and more. Filter is included and lasts approximately one year for fewer filter purchases.

Save Valuable Space

Filter easily mounts to the cabinet under the sink, taking up less space than expensive water jugs and home RO filtration systems.

Faucet Kit	SKU	Description
Avado Filtered Kitchen Faucet	LKAV7051F	Single Hole Kitchen Filtration Faucet With Pull-down Spray and Filtration Option
WaterSentry Filter	71300C	2,250-gallon PFOA/PFOS Certified Reduction (approximately 12-month life)
