

ELKAY®

Avado® Filtered Beverage Faucet

Better Hydration Made Easy

Filtered water at the sink makes hydration a breeze for you, your pets and even house plants. The Avado® filtered beverage faucet provides cold, filtered water, while saving time and money by eliminating the need for disposable plastic water bottles. The long-life filter reduces PFAS (PFOA/PFOS), microplastics, lead and other contaminants for peace of mind and great-tasting water.

elkay.com/faucets

Simple Installation

Installs using one faucet hole next to the kitchen faucet.

Space-Saving Filter Installation

Filter mounts to cabinet wall to keep your sink area and the space under the sink free of clutter.

Filtered Water

Filter is tested and certified to NSF/ANSI 42, 53 and 401 to reduce PFOA/PFOS, lead, microplastics and other contaminants for safer water.

Long-Life Filter

Quick-change filter lasts approximately one year, saving time and money while providing cleaner, better-tasting water. Included with faucet.

Flow Rate

Max flow rate is 1.5 GPM.

Reduce Waste

Contribute to a cleaner world by eliminating single-use plastic water bottles that can end up in waterways.

Cold Water Only

Hooks into cold water line. This filtered water faucet coordinates with an array of Elkay kitchen faucets.

3 Stunning Colors

Chrome (CR)

Lustrous Steel (LS)

Matte Black (MB)
