

# Vandal-resistant Retrofit Filtration Kits

EF1500VRBMC

## Versatile and Vandal Resistant

Retrofit filtration kits are an ideal solution to add a filtration system to existing non-filtered water coolers, fountains, bottle filling stations and classroom sinks. Provide filtered water in and out of the classroom. The kits can be applied to both Elkay® and non-Elkay branded units, and are available with and without filter status monitor and alert.

[elkay.com/filtration](http://elkay.com/filtration).

## Kit Features

**Vandal-resistant Enclosure:** Made from 20-gauge stainless steel to protect filter and discourage tampering. Torx® bit included for added security.

**Versatile Mounting Options:** Box can be mounted virtually anywhere near an accessible water line. Box includes conduit punch-outs on sides and bottom and an open back for thruwall plumbing. (Vandal-resistant conduit not provided.)

**WaterSentry® VII Filter:** 1,500 gallon filter is tested and certified to NSF/ANSI 42 and 53 for the reduction of lead, cysts and Class I particulates from your drinking water; it is also shown to reduce chlorine taste and odor.

**Filter Status Monitor and Alert\*:** LED filter monitor and audio alert indicate when replacement is necessary.
