Neptune® by Elkay offers a powerful combination of excellence in stainless steel sinks. **Value. Quality. Style.** Together these characteristics take sinks crafted to handle the rigors of daily living and transform them into design elements with timeless appeal that are without comparison in the industry.

Neptune by Elkay offers a stainless steel sink for everyone and every budget. Choose from a variety of quality grades, and a huge assortment of styles. Each sink is crafted with extraordinary Elkay quality that is without equal regardless of your budget.

### Features that make Neptune by Elkay the superior sink choice

**THICKNESS:**
Did you know that the smaller the number, the thicker the steel?

Thicker stainless steel means greater structural integrity with reduced noise and vibrations.

**NOISE:**
Have you noticed how noisy your sink can be?

Exclusive Sound Deadening protection applied to our sinks will reduce noise associated with dropped utensils and food waste disposals.

**CAPACITY:**
How many dishes can you fit in your sink?

Our sinks feature straight sides and bottoms to provide you with more usable work space.

**FINISH:**
Is your finish going to last as long as your sink?

Characterized by its depth and richness, our durable Satin finish will last years.

---

### Sink Capacity

The unique straight-sided construction and tighter radius of corners featured on all of Elkay’s Neptune sinks result in more usable sink space.

This extra space is considerable. In a standard double bowl, Neptune’s extra capacity means you can fit 42% more glasses, two sizes of dishes instead of one and over 1 gallon more water. When the goal is a quick clean-up, nothing helps out more than Elkay.

### Neptune by Elkay vs Competition

**Our smaller taper yields more usable sink space**

Here are a few tips to remember to help retain the sink's new look.

- Drain and rinse after each use and wipe dry. Never allow detergent to dry on stainless steel surfaces. (Most detergent brands currently contain additives which tend to be corrosive.)
- Use of "steel wool" pads is not recommended. These materials may leave metal splinters in the sink which give the appearance of rust in the stainless steel.
- Remove mats, wet sponges or dish rags from the surface.

We recommend cleaning of all exposed surfaces of Neptune by Elkay sinks with a conventional non-abrasive household cleanser. Make sure to rub back and forth in the direction of the sink grain lines. This will remove any stains and blend any scratches, which occur during normal use. Rinse thoroughly and completely towel dry.

For care and cleaning problems call 1-800-223-5529

In keeping with our policy of continuing product improvement, Elkay reserves the right to change product specifications without notice.

**Accessories**

Complement your Neptune sink with the perfect accessory. Choose from high quality cutting boards and basket strainer assemblies.
